

Getting Started in 6 Simple Steps

Now that you're logged in to UConnect ... where should you start? Use these Simple Steps as a guide:

1. Customize your **profile** and **preferences** – found under the Mine tab
2. Join a conversation – **post a message** to one of the Discussions in progress
3. Start your own conversation – **create a Group** if the question or comment you'd like to add doesn't fall into any of the categories that have already been created
4. Start networking – go to the Directory and **Find a Member** to connect with
5. Check out the **Resource Library** – the 2008 Benchmarking Study, a myriad of Start-Up materials, and much more is available under the Resources tab
6. Add your voice by **contributing a Blog post** – go to the Blogs tab and click New Blog Post
